Work Experience

FactSet Research Systems

New York, NY

Software Engineer | July 2022 - Present

- Designed and engineered full-stack components using Angular and C# to provide data insurance and integrity through FactSet's testing platform

Software Engineering Intern | June 2021 - Aug 2021

- Created an internal financial currency system for employees to drive productivity and increase community engagement
- Utilized Vue.js, Typescript, and Postgres to create an interactive webapp that provides and tracks transaction functionality within FactSet

NYU Information Technology

New York, NY

Student Technology Assistant | Mar 2020 - Dec 2021

- Organized and held meetings with clients regarding help with the implementation of Zoom in the online classroom setting
- Assisted on tickets with multiple clients regarding remote technology issues such as Cisco Jabber, Microsoft Office, and Zoom
- Coded a script that organized tickets and sorted them into respective categories for other student workers to reference from
- Optimized client communication with remote takeover via Zoom to help solve issues regarding NYU technological platforms

Fundstrat Global Advisors

New York, NY

Fullstack Engineering Intern | Jun 2020 - Aug 2020

- Developed additional features and widgets for the FS Insight website using PHP that include portfolio snapshots and subscriptions
- Proposed and implemented new website content architecture and navigation features utilizing the Tailwind CSS framework
- Used Figma and wireframes to provide UI/UX design solutions to the senior software developer and Chief Financial Officer
- Automated and generated emails on the Klaviyo platform using HTML and CSS to design and create weekly crypto newsletters

Leadership Activities

NYU Innovention Society

New York, NY

Assistant Director | Sep 2019 - May 2020

- Conducted and led programs designed to engage first-year students with start-up culture, entrepreneurship, and venture capital
- Brought in speakers from different technology fields to talk about their personal experiences and introduce their own products
- Directed workshops for students in topics such as Excel, Python, and Java to assist in the development of students' creations
- Attended weekly meetings with executive board members to plan events such as the InnoVention Competition (\$50,000 prize)
